FAMILY FOOD

Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the food by the advice of his physician. She says:

"They derive so much good from it that they never pass a day without using it. While I was there I used the food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in our family regularly.

"My little 18 months old baby shortly after being weaned was very ill with dyspepsia and nothing helped. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk.

"Well, it worked like a charm and began taking it regularly and improvement set in at once. She is now getting well and round and fat as possible on Grape-Nuts.

"Sometime ago several of the family were stricken with LaGrippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us.

"We all appreciate your famous food has done for our family."

SENATOR ROBERT M. LA FOLLETTE will appear in Salt Lake September 25 as the first number of the University of Utah lecture course. United States Senator "Pitchfork" Tillman is a new addition to the course, not announced when the original announcement was made. He will appear during conference week, October 7.

JOHN LA MOTTE of the Bullfrog-Sloux Mining company was in Salt Lake yesterday on his way from Salt Lake, Md., where he has been for several weeks last past, enroute to his new home in Nevada. Mr. La Motte has spent a month in the East, but last year came West and made some investments in Goldfield, which have proved successful. He will make the West his home in the future.

A THIEF, polite enough to leave his name, stopped at the Cliff House Saturday evening at about 9 o'clock. He went upstairs and borrowed a small telescope, with which he departed. The proprietress came running after him, and as she called to him to stop, he turned on the stairs and called back: "My name is Morrison. I am a man of the town." Evidently he was, for the police have not found him as yet.

JOHN MURRAY was stopped by a bogus policeman Saturday morning, when he was on his way from the police station and forthwith proceeded to search his victim, extracting from him Murray's story, about \$100 from his pockets. Then the man marched Murray down the street, leaving him waiting at a saloon door while he stepped into a police station, where he reported his case.

ROBERT J. WILDHACK, artist advertiser from New York, a nephew of Kent O. Keyes of the New York Central lines in this city and L. J. Keyes, city clerk and passenger agent of the Harriman line here, and son of W. H. Wildhack, auditor of the Lake Erie & Western railway at Indianapolis, Ind., is a Salt Lake visitor. He leaves tomorrow for his home in the East. Mr. Wildhack has been in several weeks in the mountain region in the interest of the newspapers and magazines which he represents. He has taken a large number of pictures during his visit. He expresses himself as happily surprised and delighted at the resources of Salt Lake City and that portion of Utah which he has visited. During his tour of the West he has spent several weeks in the Nevada districts. He is taken with Utah, however, and declares that the camp which he has visited are the best he has seen.

Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 807 W. 26th St., N. Y. She writes: "Dear Mrs. Pinkham: Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

M'FARLAND IS LUCKY SELECTING CHAMPIONS

Downing Thinks Handicap Is a Joke; Clarke and Pye Will Leave.

On next Tuesday evening W. E. Samuelson and Hardy Downing will compete in a fifty-mile motor paced match race, in which event Downing is to receive a two-mile handicap. Samuelson figures that after twenty miles of good fast riding he will be able to kill off Downing, but the latter laughs at the handicap as a joke and states that Samuelson had better take care that he is not beaten two miles instead. Downing was out trying to bet \$100 that Samuelson would not beat him that distance and wants to ride winner to take the entire purse, but Samuelson claims that an accident might happen and he would rather have the purse divided 60 and 40 per cent. Samuelson has purchased Walthour's fast motors and he figures that these machines will carry him to victory. Downing, on the other hand, claims that he can go as fast as Samuelson behind any machine at the track. Downing says he will try to ride every mile in about 1:20, which, if he does, will keep Samuelson busy hanging on.

There will also be a half-mile handicap professional and a mile handicap amateur race.

Clarke and Pye Leave.

A. J. Clarke and E. Pye will leave tonight for Australia, where they will race during the winter months and return here next spring. Pye will be accompanied by his wife. Reports have it that Clarke is also engaged to be married and will return here next winter to take away a girl to Australia as well. Walthour's fast motors and he figures that these machines will carry him to victory. Downing, on the other hand, claims that he can go as fast as Samuelson behind any machine at the track. Downing says he will try to ride every mile in about 1:20, which, if he does, will keep Samuelson busy hanging on.

GANS AND BRITT ARE DOWN TO WEIGHT

SAN FRANCISCO, Sept. 7.—The betting Gans-Britt fight tonight was at the odds of 10 to 6 in favor of Gans.

Neither man did any stiff work today although both were out on the road to keep an edge and within easy striking distance of the weight. Gans and Britt weigh exactly the same, 133½ pounds, and neither will have any difficulty in drying out the excess poundage. Both will drop to 133 tomorrow and will arrive Monday weighing 132, which will enable them to weigh in at the ring under the limit Monday afternoon.

Bantam Issues Challenge.

George Knight, a bantamweight, issued a challenge Saturday to box any one in the State Kid Ball preferred. Knight is a corner in the game, and to the present time has not met with defeat. He has seen Bell box and is confident that he can win from the colored boy in twenty rounds.

In Hotel Corridors

MRS. ROBERT H. MURRAY of New York, nee Miss Mary Martin of Salt Lake, arrived in the city Friday, on a visit to her mother, Mrs. Martin. This is Mrs. Murray's first visit to the city of which she was one of the favorite society belles before her marriage to Mr. Murray, a newspaper man and magazine writer, about ten years ago.

Mrs. Murray accompanied the Taft party from the East to Yellowstone Park, and left the party at Logan, Mont., to come to Salt Lake. Her husband, Mr. Murray, accompanies the party in its trip around the world, as correspondent of the North American of Philadelphia. He is also Associated Press correspondent of the party.

Mrs. Murray will visit with her mother, who resides at 1336 East Fifth South street. On October 15, she will sail for London, and will subsequently meet her husband at Berlin, and after a tour of Europe will return to their home in New York.

E. H. RYAN, attorney of Cedar City, was in the city a few days, a guest of the Cullen. While here he completed the formation of one of the largest corporations ever organized in the southern part of the state. It is called the Rush Lake Oil and Gas company, with a capitalization of \$2,500,000, divided into a like number of shares. The property upon which the corporation is predicated and which the company owns, consists of 400 acres of oil lands situated in Iron county, less than twenty miles east of Lund station, on the line of the San Pedro, Los Angeles & Salt Lake railroad, thirty-three miles south of Milford, and due north of the oil fields around Virgin City, in Washington county.

The personnel of the directorate," said Mr. Ryan, "is not yet fully determined, but it will consist of some of the most experienced oil men in the West, who will have for associates some eastern and Utah capitalists, men who are not only willing and anxious to furnish ample means with which to open up the property."

"The lands owned by this company have been favorably explored by some of the most eminent oil experts and also by geologists."

"The country has been examined by competent and experienced oil experts, and they give it as their opinion that from Rush Lake to the Virgin and on through into Arizona, is the greatest oil field in the country, if not in the world, and future developments, that will demonstrate the accuracy of their judgment."

COLLEGE FOOTBALL TEAM IS UNKNOWN QUANTITY

The boys at All Hallows will begin kicking the football around the grounds and doing the preliminary work for the season of 1907 next Tuesday. It is too early to say what the outlook for a winning team will be, but several of the members of last year's team have signified their intention of coming back and there is considerable interest being manifested by former players and friends of the college. Last year the team was not scored against but did not succeed in winning many games; and this year great efforts will be made to surpass the records of other years.

Philip Fitzmaurice, who played such a good game at quarter last season is expected back. For a player of his age he ranks very high. He has a good head, is a good drop kicker, a good tackler and runner, and has plenty of nerve. With Fitzmaurice behind the line the college can count on having the players well directed. Among the other men who are expected to enter school again are Walsh, guard; Thomas, back; McAllister, back; White, center; Rhodin, guard; Prince, subquarter last year; Lynch, tackle; Doolittle, utility man last season; Cannon, back; Olmstead and Sullivan, subends last season. In addition to these men, there will be several young fellows who played on the second team last season. Of course all of these men may not come back and others may enter whose worth is unknown at this time.

Of last year's team, Quinn, captain; Murphy, Hays and Toohy will be missing. There is a chance that Hays may return. Quinn, who did good work as tackle last season, is thinking some of entering the University. Murphy and Hays were two of the best ends in their class and did a great deal in preventing scores being made against their team. Toohy, the strongest man on last season's team, was never known to be injured and could always be relied upon to do his part. Whether or not the new men will be able to successfully fill the vacancies is a question that can be settled only by time and games. The outlook at present is more favorable than at this time last year, and with ordinary luck the team ought to make a creditable showing.
